I'm a Front End Developer

A front end developer has one general responsibility: to ensure that website visitors can easily interact with the page. A good developer can do this through the combination of design, technology and programming to code a website's appearance, as well as taking care of debugging.

About Me

Hello! I'm Aadya Gupta

I'm a new freshman in this Tech field. I enjoy coding because I find it much easy to relate and logical than any other thing learnt so far. Every correct output brings a big smile on my face and every error tells that there is still scope to learn more. Apart from learning to code, I also spend my time in my side hustle of writing my online book named 'My IAS Husband'. It had received over 8.2K+ views on Wattpad so far and still counting. I'm all time eager to learn new things and always present to gain new experiences.

My Skills

Canva is a graphic design platform, used to create social media graphics, presentations, posters, documents and other visual content.The platform is free to use and offers paid subscriptions such as Canva Pro and Canva for Enterprise for additional functionality.

HTML5 is a markup language used for structuring and presenting content on the World Wide Web. It is the fifth and last major HTML version that is a World Wide Web Consortium recommendation. The current specification is known as the HTML Living Standard.

Content writing is the process of planning, writing and editing web content, typically for digital marketing purposes. It can include writing blog posts and articles, scripts for videos and podcasts, as well as content for specific platforms, such as tweetstorms on Twitter or text posts on Reddit.

Digital marketing, also called online marketing, is the promotion of brands to connect with potential customers using the internet and other forms of digital communication. This includes not only email, social media, and web-based advertising, but also text and multimedia messages as a marketing channel.

Photography skills refer to the set of skills that you need to capture and produce high-quality photographs. Photography skills include the creative skills you need to capture unique photographs but also the technical skills necessary to operate camera equipment and edit photos.

Public relations skills are essential for working in a variety of jobs that require regular communication with others. They typically include skills such as communication, research and the ability to identify trends in public opinion.

I'm a Budding TechBee!

Though being a freshman, I'm not that skilled for the work nor I have much experience of before but still I can ensure my full sincerity towards my work and commmitment towards the goal if chance given for being part of Tech-team.
